

Project Initialization and Planning Phase

Date	3 July 2026
Team ID	XXXXXX
Project Name	Rising water
Maximum Marks	3 Marks

Define Problem Statements (Rising water):

Current flood prediction methods often lack the speed and accuracy needed for effective disaster preparedness. This project develops a Machine Learning-based flood prediction system that analyzes historical weather data to provide accurate and timely flood risk predictions through a user-friendly web application.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A male applicant seeking a loan.	Secure a loan for the property	Married with no co-applicant income.	Self-employed with a good credit history.	Optimistic about loan approval.
